# Protection and hygiene of working hands

CATALOGUE 2024

  
**NETTUNO**  
we take care of your hands

EN

# Our company

Leading manufacturer of professional cosmetic handwashers

**For over fifty years, we have believed that the well-being of workers should be the goal of every company.**

## Company

Our story begins in the province of Bergamo in **1970**, when **Battista Fratus**, the founder of the Nettuno brand, decided to realise his great dream: to create his own company, capable of **generating shared prosperity** through work.

**More than 50 years** have passed since that era of great change, but the company has always acted with the same resourcefulness and **capacity for renewal** to meet the challenges of the market, combining **tradition and innovation** and succeeding in establishing itself as a **leader in the professional hand cleaning sector**.

Today, at the helm of the company, there are the second and third generations who, together with a staff of capable and trustworthy collaborators, continue on the path traced, interpreters of an entrepreneurial vision that combines **passion, technology and human capital**. Underlying the company's choices are still the same values and the idea of doing business by reconciling economic profit with **solidarity and attention to the territory** that inspired the founder at the start of this exciting journey.

## Vision

Our hands are the daily instrument of our actions and, never before have we become aware of the **importance of taking care of them**. Nettuno is the ideal partner for anyone who wants a **hand hygiene solution** that is effective, fast, high quality and environmentally friendly.

But also for those who want a reliable supplier at their side to help them meet their customers' needs and meet the challenges of an **ever-changing market**.

The perfect ally, therefore, for those who believe that the culture of hygiene means above all a culture of health.

## Mission

Protection, cleansing and hand care have always been the primary goals of our daily work. Producing products with **ever higher quality standards** is only possible thanks to constant technological innovation, scientific research and investment in the training of our people, the most precious capital for our company. Our customers are supported by an attentive and dynamic network of agents and a **well-prepared and competent sales department**. Both are in constant dialogue with the production department, which in turn operates in connection with the laboratory and the logistics hub.

# We are a business partner for our customers, with whom we establish a relationship of mutual trust.

**2015**

Energy efficiency  
(LED lights)

**2017**

## Protection

## Barrier creams

Against oil-based substances: to be applied before work

# Protexsol Professional

**Protective barrier cream for hands against oily and greasy substances. Water-soluble**

Barrier cream that acts as an invisible glove specifically designed to protect hands from oily substances. Water-soluble, **Protexsol Professional** contains special emulsifiers that reduce the penetration of harmful substances into the skin and facilitates its cleansing.

### Protects from:

#### OILY SUBSTANCES:

Grease, oil, lubricants, hydrocarbons, bitumen, paints, enamel, sealants, rust, graphite, glue, resin, fibreglass, fertilizers, fat-soluble solvents.

### Features:

- Silicone, dye and paraben-free
- Protects, hydrates and leaves skin soft
- Effectiveness proven in independent laboratories
- Non-greasy and no greasy film residue
- Dermatologically tested
- pH 5.5

## FOCUS: PREVENTION OF OCCUPATIONAL DISEASES

# SKIN CARE PROGRAMME

## Hand Protection, Cleansing and Care

Incorrect hand care may lead to more or less risky consequences, including a variety of occupational diseases.

Using the NETTUNO programme, these problems can be prevented, ensuring that workers' hands are always protected and cared at all times.

**These are the rates at which occupational diseases occur:**

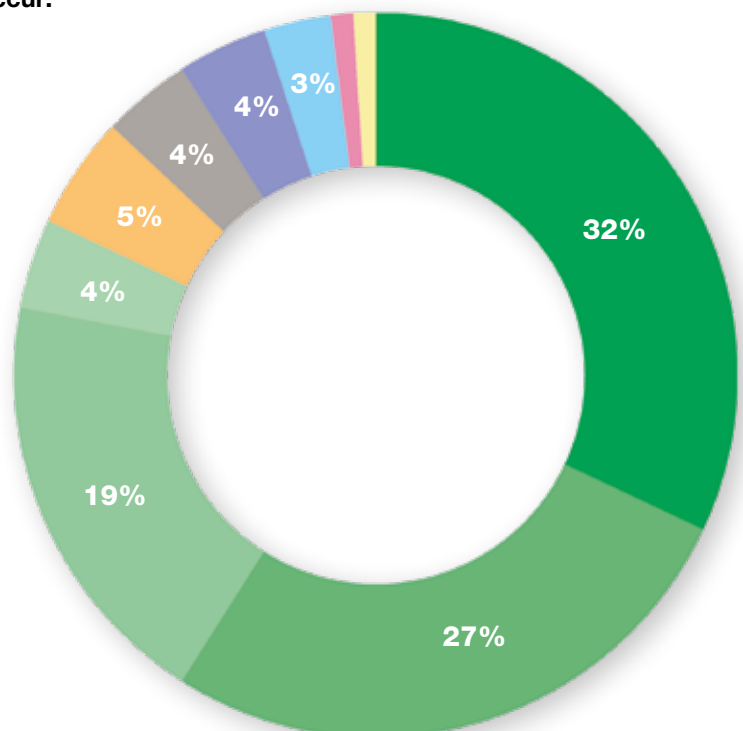

- 32%** Other contact dermatitis
- 27%** Contact dermatitis with chemicals
- 19%** Contact dermatitis with detergents
- 4%** Contact dermatitis due to oils and fats
- 5%** Malignant skin tumours
- 4%** Erythematous desquamative dermatoses
- 4%** Other skin diseases

*Other cases:*

3% allergic urticaria

1% malignant melanoma of the skin

1% other dermatoses

## Skin Care Programme

# Skin Care Programme

### Boards for the prevention of occupational skin diseases

Nettuno designed and produced a practical wall-mounted board, which offers a complete protection, cleansing and care programme, for working hands. In single or '3-in-1' version, the panel holds sturdy dispensers for barrier creams, professional soaps and restorative balm.

#### Features:

- **3 in 1:** a unique board for hand protection, cleansing and care to be placed inside the bathroom
- **Single board:** Possibility of placing single boards in different work environments (changing rooms, production areas, bathroom, etc...), for a complete programme before/ during/after work.
- Already fixed dispensers
- Workers' hands always protected, cleaned and treated
- Safer and more hygienic working environments

EACH WASHING

Cost-effective,  
**look at the number  
of washes!**

\* The cost per washing has been calculated on the average quantity used for every product: we estimate that when using a hand cleaning paste, the average quantity used is 25 grams, whilst for hand cleaners with pump dispenser it's 3 ml.
