Nettuno proudly celebrates 55 years in the industry

This year we are celebrating an important achievement: 55 years in business. Founded in 1970, the company has established itself over the decades as an industry benchmark through constant innovation, quality and customer service.

From the beginning, Nettuno has had a clear vision of its goal: to offer products and solutions of excellence, capable of meeting the needs of an ever-changing market. Over the years, the company has been able to adapt and develop, integrating cutting-edge technologies and investing in research and development, keeping intact the values of know-how and customer care that have distinguished it from the beginning.

Nettuno's history is one of successes, but also of challenges. Throughout its long history, the company has faced personal vicissitudes and market difficulties with determination and resilience, consolidating its position and expanding its range of products and services. Today Nettuno is recognized not only in Italy, but also abroad, as a synonym for reliability and quality.

On the occasion of our 55th anniversary, we would like to thank all those who have participated in this extraordinary achievement: founders, employees, customers and business partners.

It's thanks to you that Nettuno Srl has become what it is today. Your trust and support have enabled us to achieve results that previously seemed impossible.

Thank you for being part of our story.
Together, towards the next 55 years!

OUR HISTORY BEGINS IN 1970

COMPANY

Our story begins in the province of Bergamo in **1970**, when **Battista Fratus**, the founder of the Nettuno brand, decided to realise his great dream: to create his own company, capable of **generating shared prosperity** through work. **More than 50 years** have passed since that era of great change, but the company has always acted with the same resourcefulness and **capacity for renewal** to meet the challenges of the market, combining **tradition and innovation** and succeeding in establishing itself as a **leader in the professional hand cleaning sector**.

Today, at the helm of the company, there are the second and third generations who, together with a staff of capable and trustworthy collaborators, continue on the path traced, interpreters of an entrepreneurial vision that combines **passion, technology and human capital**. Underlying the company's choices are still the same values and the idea of doing business by reconciling economic profit with **solidarity and attention to the territory** that inspired the founder at the start of this exciting journey.

VISION

Our hands are the daily instrument of our actions and, never before have we become aware of the **importance of taking care of them**. Nettuno is the ideal partner for anyone who wants a **hand hygiene solution** that is effective, fast, high quality and environmentally friendly.

But also for those who want a reliable supplier at their side to help them meet their customers' needs and meet the challenges of an **ever-changing market**. The perfect ally, therefore, for those who believe that the culture of hygiene means above all a culture of health.

MISSION

Protection, cleansing and hand care have always been the primary goals of our daily work. Producing products with **ever higher quality standards** is only possible thanks to constant technological innovation, scientific research and investment in the training of our people, the most precious capital for our company.

Our customers are supported by an attentive and dynamic network of agents and a **well-prepared and competent sales department**. Both are in constant dialogue with the production department, which in turn operates in connection with the laboratory and the logistics hub.

PREVENTION, THE BEST CURE

It is not said enough: **inadequate hand protection** in the workplace can lead to very serious health consequences.

Manual work, both in industry and in the personal services sector, often exposes workers to **repeated contact with potentially harmful substances**, but this risk is often not properly perceived.

INAIL (the Italian Institute for Insurance against Accidents at Work/surveys) show that the lack of adequate skin protection in the workplace is one of the main causes of dermatitis and other skin disorders. These are to all intents and purposes **occupational diseases**, which **can and must be prevented**.

Thanks to the comprehensive treatment offered by Protex creams, **the safety of workers and the health of their hands will no longer be a concern.**

All our products are **specially designed** to meet the professional needs of workers, **dermatologically**

tested and certified by an independent laboratory to ensure their dermoprotective and healing qualities.

Choose Protex creams and **protect the health** of your workers.

PRO TEC TION

BARRIER CREAMS • BEFORE AND DURING WORK

PROTEXSOL PROFESSIONAL

Protective barrier cream for hands against oily and greasy substances. Water-soluble

Barrier cream that acts as an **invisible glove** specifically designed to protect hands from oily substances. Water-soluble, Protexsol Professional contains ingredients that reduce the penetration of harmful substances into the skin and facilitates its cleansing.

PROTECTS FROM:

OILY SUBSTANCES

Grease, oil, lubricants, fat soluble solvents, hydrocarbons, bitumen, varnish, glaze, glue, resins, sealants, rust, graphite, fiberglass.

FEATURES:

- Silicone and dyes free
- Protects, hydrates and leaves skin soft
- Enriched with emollients
- Non-greasy and no greasy film residue
- Dermatologically tested
- Helps prevent professional skin diseases
- pH 5.5

MACROCREAM

Hand cleansing cream with vegetable microgranules

Hazelnut-coloured and with a fruity scent, Macrocream is characterised by its excellent cleansing and softening properties. It contains vegetable-based microgranules to further strengthen the cleansing action. Furthermore, thanks to its skin pH, it is suitable for frequent use.

SUGGESTED FOR:

- Tyre Dealers
- Fitters
- Carpenters
- Building contractors
- Farmer/Gardener

FEATURES:

- Vegetable microgranules (hazelnut and almond shells)
- Enriched with emollients
- Recommended for frequent use
- Leaves skin soft
- pH 5.5

DOCCIA SHAMPOO

Shampoo and body wash

This product "2 in 1" is extremely practical, as it has been specially developed to cleanse in a single operation body and hair. Thanks to its epidermal pH, it is suitable for all types of skin. Doccia shampoo makes the skin softer and smoother, thanks to its unique combination of moisturizing agents and emollients, and hair silkier and easy to comb because it reduces static electricity. Perfect after work, to give a feeling of freshness and well-being.

FEATURES:

- Enriched with emollients
- Delicate scent
- pH 5.5

CLE AN SING

SANITISERS • WITH OR WITHOUT RINSING

SENDYGIEN

Liquid soap with sanitising action. With rinsing

Odourless and clear liquid soap. Sendygien, thanks to the presence of OPP, was created as a sanitising soap, specifically designed to meet the needs of professionals operating in environments subjected to hygiene inspections and quality audits of HACCP. Enriched with emollients, it gives the skin a pleasant sensation of freshness and hydration.

SUGGESTED FOR:

- Offices and communities
- Environments subject to HACCP procedures
- Food sector
- Health sector

FEATURES:

- Tested to standard EN 12054
- Enriched with emollients
- Contains an anti-bacterial agent
- Fragrance-free
- Colourant-free
- Need to rinse
- pH 6.2

KILL PLUS

Moisturizing-sanitizing lotion for hands without alcohol. Without rinsing

Thanks to the glycerin action, Kill Plus makes skin soft and hydrated, as well as performing an anti-bacterial and anti-viral action. Its formulation is alcohol-free and scent-free, which may cause intolerance and allergies. This product is non-flammable, does not dry the skin and leaves a pleasant touch sensation after use. The effectiveness of Kill Plus is guaranteed by legislation in force EN 12054, EN 1500, EN 14476, EN 1650.

SUGGESTED FOR:

- Traveling
- Public environments
- Environments subject to HACCP procedures

FEATURES:

- Silicone-free
- Alcohol-free
- Fragrance-free
- For frequent use
- Enriched with emollients and moisturising agents
- With anti-bacterial, viral and fungal action
- No need to rinse
- Epidermal pH
- Dermatologically tested
- Non-flammable

ALCOHOL GEL PLUS

Moisturising hand gel with sanitising action and alcohol-base. Without rinsing

Alcohol Gel Plus, other than moisturising hands thanks to the presence of emollients, it eliminates germs and bacteria quickly and effectively thanks to the presence of 70% alcohol, leaving the hands a pleasant sensation of freshness and cleanliness. The effectiveness of Alcohol Gel Plus is guaranteed by legislation in force EN 14476.

SUGGESTED FOR:

- Offices and communities
- Public environments
- Environments subject to HACCP procedures

FEATURES:

- 70% alcohol
- Virucidal action
- Enriched with emollient active principles
- No need to rinse
- Neutral pH

CARE

MOISTURIZING CREAM • AFTER WORK

PROTEXEM RINNOVA

Moisturising and softening hand and face cream

Moisturiser for hands and face specifically designed for application after work. Thanks to its softening, nourishing properties, Protexem Rinnova strengthens the natural regeneration of the skin, preventing chapping and dryness, caused by many occupational skin diseases.

SUGGESTED FOR:

- All activities

FEATURES:

- Nourishes and moisturizes the skin
- Prevents cracking and drying
- Non-greasy and no greasy film residue
- Absorbs quickly
- Helps prevent professional skin diseases
- Delicate fragrance (indian amber)
- Silicone, dyes and parabens free
- pH 7.0

DISPENSERS, FLOOR STANDS AND DISPLAYS

SKIN CARE PROGRAMME

Boards for the prevention of occupational skin diseases.

Nettuno designed and produced a practical wall-mounted board, which offers a complete protection, cleansing and care programme, for working hands. In single or '3-in-1' version, the panel holds sturdy dispensers for barrier creams, professional soaps and restorative balm.

FEATURES:

- 3 in 1: a unique board for hand protection, cleansing and care to be placed inside the bathroom
- Single board: possibility of placing single boards in different work environments (changing rooms, production areas, bathroom, etc...), for a complete programme before/ during/after work.
- Already fixed dispensers
- Workers' hands always protected, cleaned and treated
- Safer and more hygienic working environments
