OUR HISTORY BEGINS IN 1970.

COMPANY

The history of Nettuno began in **1970** in the province of Bergamo, when **Battista Fratus** realised his dream of creating his own company, capable of generating shared prosperity through work. After more than half a century, the company maintains the same **initiative** and capacity for **renewal**, combining tradition and innovation and establishing itself as a **leader in the professional hand washing sector**. Today, the second and third generations run the company together with a **team of reliable employees**, continuing along the path laid out: an entrepreneurial vision based on **passion, technology and human capital**. The founding values remain economic profit combined with solidarity and attention to the local area, elements that have been a source of inspiration since the beginning.

VISION

Our hands are the tools we use every day to carry out our actions. Nettuno is a reliable choice for effective, quick, high-quality and environmentally friendly hygiene, promoting a health-oriented mindset as the foundation of personal and community care. Today, our vision has expanded to include surface hygiene, because true health comes from paying attention not only to our hands but also to the environments around us.

MISSION

The main objectives of our daily work have always been hand washing, protection and care, which have recently been joined by professional disinfection and cleaning of hands and surfaces. We focus on technological innovation, scientific progress and staff training to offer ever higher standards. Customer support is developed through a dynamic network of agents, a competent sales department and continuous integration between production, laboratory and logistics.

PREVENTION, THE BEST CURE

It is not said enough: **inadequate hand protection** in the workplace can lead to very serious health consequences.

Manual work, both in industry and in the personal services sector, often exposes workers to **repeated contact with potentially harmful substances**, but this risk is often not properly perceived.

INAIL (the Italian Institute for Insurance against Accidents at Work/surveys) show that the lack of adequate skin protection in the workplace is one of the main causes of dermatitis and other skin disorders. These are to all intents and purposes **occupational diseases**, which **can and must be prevented**.

Thanks to the comprehensive treatment offered by Protex creams, **the safety of workers and the health of their hands will no longer be a concern.**

All our products are **specially designed** to meet the professional needs of workers, **dermatologically**

tested and certified by an independent laboratory to ensure their dermoprotective and healing qualities.

Choose Protex creams and **protect the health** of your workers.

PRO TEC TION

BARRIER CREAMS • BEFORE AND DURING WORK

PROTEXSOL

Protective barrier cream for hands against oily and greasy substances. Water-soluble

ProtexSOL is a skin-protecting cream with excellent skin tolerability. It creates an invisible film on the hands that reduces the adhesion of non-water-soluble substances (oils, grease, paints), limits their absorption and facilitates subsequent cleaning of dirt.

PROTECTS FROM:

OILY SUBSTANCES

Grease, oil, lubricants, fat soluble solvents, hydrocarbons, bitumen, varnish, glaze, glue, resins, sealants, graphite.

FEATURES:

- Barrier effect: prevents the absorption of harmful, non-water-soluble substances
- Facilitates the removal of stubborn dirt
- Non-greasy and leaves no oily residue
- Helps prevent occupational skin diseases
- Free from silicone, colourants and parabens
- Enriched with emollients such as glycerine
- Dermatologically tested
- pH 5.5

SUGGESTED FOR SECTORS:

Mechanical/metalworking, automotive, construction/shipbuilding and all professions that come into contact with greasy or oily substances.

NEW FORMULA

PROTEXINS

Protective barrier cream for hands against water-based substances. Water-insoluble

ProtexINS protects and regenerates the skin barrier even in the most humid working conditions. The water-in-oil emulsion, glycerine and vitamin E offer deep moisturising and regenerative action. It contains a vegetable substitute for lanolin that prevents dehydration and forms a barrier against the absorption of irritants. Rapid absorption, also ideal under gloves.

PROTECTS FROM:

HYDROVEHICULATE SUBSTANCES:

Acids, alkalis, aqueous solutions, water- and oil-based dyes and inks, salts and detergents, cement, lime. Also ideal under occlusive clothing (e.g. gloves).

FEATURES:

- Barrier effect: prevents the absorption of irritants and harmful substances
- Reduces skin maceration in the most humid working conditions
- Rapid absorption: also excellent under gloves
- Easy to spread, non-greasy and leaves no oily residue
- Suitable for HACCP
- Helps prevent occupational skin diseases
- Silicone-free, colourant-free, paraben-free
- Perfume-free
- Enriched with emollients such as glycerine and vitamin E
- Dermatologically tested
- pH 6.0

SUGGESTED FOR SECTORS:

Chemical, cosmetic, textile, agri-food, construction/shipbuilding, tanning, printing, hairdressing/barber salons and all professions that come into contact with water-based substances.

PROTEXSUN SPF50+

SPF 50+ sun cream for hands, face and body. Protects against UVA, UVB and UVC rays

ProtexSUN offers very high protection against the entire spectrum of UVA, UVB and UVC rays. Ideal for professional use, it absorbs quickly without leaving a greasy residue, keeping the skin soft and supple. Enriched with glycerine and vitamin E, it deeply moisturises, counteracts premature skin ageing and helps prevent erythema and sunburn. Dermatologically tested. Free from silicone, colourants and parabens. Apply regularly for constant protection.

PROTECTS FROM:

Solar and artificial UVA and UVB rays and artificial UVC rays.

FEATURES:

- Protection level: VERY HIGH (SPF 50+), certified by an independent laboratory
- UVA/UVB ratio > 1/3
- Suitable for hands, face and body
- Silicone-free, colourants-free and parabens-free
- Enriched with emollients such as glycerine and vitamin E
- Dermatologically tested
- pH 5.5

RECOMMENDED FOR:

Professionals who work outdoors, operators involved in welding or the use of UV lamps in medical and industrial settings.

HEAVY-DUTY HAND CLEANERS • OIL AND GREASE

MACROCREAM

Hand cleansing cream with vegetable microgranules

Hazelnut-coloured and with a powdery scent, Macrocream is characterised by its excellent cleansing and softening properties. It contains vegetable-based microgranules to further strengthen the cleansing action. Furthermore, thanks to its skin pH, it is suitable for frequent use.

SUGGESTED FOR:

- Tyre Dealers
- Fitters
- Carpenters
- Building contractors
- Farmer/Gardener

FEATURES:

- Vegetable microgranules (hazelnut and almond shells)
- Enriched with emollients
- Recommended for frequent use
- Leaves skin soft
- pH 5.5

LA ROSSA IN CREMA

Hand cleansing cream with mineral microgranules and softening sericin

Red-coloured and Patchouli scented, La Rossa in Crema is characterised by its optimum cleansing and softening properties, the latter thanks to the sericin present, a natural protein deriving from silkworm. It contains mineral microgranules to further strengthen the cleansing action.

SUGGESTED FOR:

- Mechanical
- Blacksmiths
- Shipbuilders

FEATURES:

- Mineral microgranules
- Enriched with sericin, silk protein
- Leaves skin soft
- With softening and moisturising substances
- pH 6.7

CLE AN SING

**SPECIAL HAND CLEANERS • PAINT, GLUE, SEALANTS,
INKS AND DYES**

LA ROSSA IN GEL

Hand cleansing gel with mineral microgranules of pumice origin and enriched with softening sericin

Red-coloured and Patchouli scented, La Rossa in Gel is characterised by its optimum cleansing and softening properties, the latter thanks to the sericin present, a natural protein deriving from the silkworm. It contains a specific solvent for paint removal and mineral microgranules deriving from pumice, that gives greater strength to its cleansing action. It is ideal for removing very stubborn special dirt such as paints, enamels, PU foam, glues, silicone and sealants.

SUGGESTED FOR:

- Body shop mechanics
- Carpenters/Fitters
- Painters/House painters
- Building contractors

FEATURES:

- With specific solvent for paint removal
- Mineral microgranules (pumice stone)
- Contains emollients and moisturising substances
- Enriched with sericin, silk protein
- pH 6.0

NETTUNGEL ORANGE

Hand cleansing gel with mineral microgranules and citrus and olive extracts

Orange-coloured and fruity scented, Nettungel Orange is characterised by its excellent cleansing and softening properties.

It contains solvents and mineral microgranules which thanks to their abrasive action reinforce its cleansing action. It is ideal to remove technical dirt such as glue, adhesives, waxes and silicones.

SUGGESTED FOR:

- Body shop mechanics
- Carpenters
- Electricians

FEATURES:

- With a suitable solvent for paint removal
- Mineral microgranules
- Enriched with softening olive extract
- pH 6.7

SENDY WIPES

Multi-purpose wipes

Extra-strong, no-rinse wet wipes made from non-woven fabric. They effectively remove grease, lubricating oil, graphite, paint, silicone, and other types of professional-grade dirt from the hands, thanks to a very fine abrasive component that enhances the cleaning action. The wipes feature a delicate side and an abrasive side, designed to help remove more resistant and adherent residues from the skin. Enriched with emollients and antibacterial agents. Also suitable for cleaning machinery and surfaces.

SUGGESTED FOR:

- All automotive and industrial professions

FEATURES:

- Non-woven wipes, with 30% recycled content
- High strength
- Abrasive side and delicate side
- Enriched with emollients
- Contain an anti-bacterial agent
- Tested to standards EN 1276 and EN 12054
- pH 5.0

INKO SPECIAL

Super concentrated hand cleaner, specific for inks

Inko Special is a creamy hand cleaner suitable for removing ink and toner stains from hands. It contains natural origin microgranules and a solvent to facilitate the cleaning process. It is enriched with sericin, a protein derived from silk that ensures a soothing action.

SUGGESTED FOR:

- Printers
- Offices
- Printers maintenance

FEATURES:

- Silicone-free
- No preservatives
- Microgranules of natural origin
- Enriched with sericin, a protein derived from silk
- Super concentrated, without water
- Based on natural oils
- Dermatologically tested
- pH 9.5

CLE AN SING

SANITISERS AND PERSONAL CARE

SENDYGIEN

Liquid soap with sanitising action. With rinsing

Odourless and clear liquid soap. Sendygien, thanks to the presence of OPP, was created as a sanitising soap, specifically designed to meet the needs of professionals operating in environments subjected to hygiene inspections and quality audits of HACCP. Enriched with emollients, it gives the skin a pleasant sensation of freshness and hydration.

SUGGESTED FOR:

- Offices and communities
- Environments subject to HACCP procedures
- Food sector
- Health sector

FEATURES:

- Tested to standard EN 12054
- Enriched with emollients
- Contains an anti-bacterial agent
- Fragrance-free
- Colourant-free
- Need to rinse
- pH 6.2

HACCP

KILL PLUS

Moisturizing-sanitizing lotion for hands without alcohol. Without rinsing

Thanks to the glycerin action, Kill Plus makes skin soft and hydrated, as well as performing an anti-bacterial and anti-viral action. Its formulation is alcohol-free and scent-free, which may cause intolerance and allergies. This product is non-flammable, does not dry the skin and leaves a pleasant touch sensation after use. The effectiveness of Kill Plus is guaranteed by legislation in force EN 12054, EN 1500, EN 14476, EN 1650.

SUGGESTED FOR:

- Traveling
- Public environments
- Environments subject to HACCP procedures

FEATURES:

- Silicone-free
- Alcohol-free
- Fragrance-free
- For frequent use
- Enriched with emollients and moisturising agents
- With anti-bacterial, viral and fungal action
- No need to rinse
- Epidermal pH
- Dermatologically tested
- Non-flammable

DOCCIA SHAMPOO

Shampoo and body wash

This product "2 in 1" is extremely practical, as it has been specially developed to cleanse in a single operation body and hair. Thanks to its epidermal pH, it is suitable for all types of skin. Doccia shampoo makes the skin softer and smoother, thanks to its unique combination of moisturizing agents and emollients, and hair silkier and easy to comb because it reduces static electricity. Perfect after work, to give a feeling of freshness and well-being.

FEATURES:

- Enriched with emollients
- Delicate scent
- pH 5.5

CARE

MOISTURIZING CREAM • AFTER WORK

PROTEXEM

NEW FORMULA

Deep moisturizing cream

Specially designed for the daily care of the most demanding hands, ProtexEM nourishes and regenerates the skin, promoting cell renewal. It provides deep hydration, protects against environmental aggressions and helps soothe irritation, leaving the skin velvety, soft and smooth. A gentle and effective treatment for soft, supple and visibly healthier hands.

PROTECTS FROM:

- Dryness, chapping and external aggressions

FEATURES:

- Nourishes and moisturises
- Helps repair dry and damaged skin
- Promotes cell regeneration
- Forms a protective barrier against external aggressions
- Soothing effect on irritated and sensitive skin
- Helps remove dead cells and make the skin smoother
- Prevents signs of skin ageing
- Easy to spread, quick absorption
- Non-greasy and leaves no oily residue
- Light perfume
- Helps prevent occupational skin diseases
- Silicone-free, colourants-free, parabens-free
- Contains tocopherols, polyphenols and phytophenols thanks to the presence of vitamin E, shea butter and camelina oil
- Dermatologically tested
- pH 6.0

SUGGESTED FOR:

- All activities

SKIN CARE PROGRAMME

Boards for the prevention of occupational skin diseases.

Nettuno designed and produced a practical wall-mounted board, which offers a complete protection, cleansing and care programme, for working hands. In single or '3-in-1' version, the panel holds sturdy dispensers for barrier creams, professional soaps and restorative balm.

FEATURES:

- 3 in 1: a unique board for hand protection, cleansing and care to be placed inside the bathroom
- Single board: possibility of placing single boards in different work environments (changing rooms, production areas, bathroom, etc...), for a complete programme before/ during/after work.
- Already fixed dispensers
- Workers' hands always protected, cleaned and treated
- Safer and more hygienic working environments

N1 WC DESCALER

Scented WC gel cleaner

Perfumes, sanitises and removes the most resistant limescale, thanks to the presence of hydrochloric acid.

SUITABLE FOR:

- WC, urinals and sanitary fixtures

FEATURES:

- Effective against limescale and deposits: thanks to the hydrochloric acid, it quickly and safely removes limescale deposits and urine residue from toilets, sanitary fixtures and urinals
- Concentrated gel formula: designed to ensure greater adhesion to vertical surfaces and improve cleaning efficiency
- Long-lasting cleanliness: also removes unpleasant odours*, leaving surfaces clean and shiny
- Pleasant and long-lasting floral fragrance

* The mechanical action of the toilet brush helps eliminate substances responsible for foul odours together with dirt.

PRECAUTIONS:

Do not use on marble, enamelled metal surfaces or other surfaces that may be damaged by contact with the product. Before use, test the product on a small, inconspicuous area to check the resistance of the material. Application on acid-sensitive surfaces may cause irreversible damage. For delicate surfaces, it is recommended to carry out a preliminary test on a small area.

Also available in floor display stand - upon request.

N2 STRONG DESCALER

Strong descaler

Easily removes stubborn limescale from taps, sinks and fixtures. It leaves surfaces shiny and scented. Do not use on marble and acid-sensitive surfaces.

SUITABLE FOR:

- Taps and shower heads filled with limescale or blocked
- Shower cubicles, sides of baths, tiles, sinks, sanitary ware

FEATURES:

- Counters limescale and encrustation: helps eliminate limescale deposits, rust stains and various types of encrustation
- Acts effectively on all acid-resistant surfaces: tiles, glazed surfaces, sinks, sanitary ware, stainless steel equipment and surfaces, taps. In a single operation it cleans and descales
- Pleasant and long-lasting floral fragrance

PRECAUTIONS:

Do not use on marble and acid-sensitive surfaces. Always rinse accurately. On delicate surfaces, it is always recommended to test the product on a small area before use.

N3 SHOWER ENCLOSURE CLEANER

Limescale remover with anti-drip protection

Cleaner specially formulated to remove daily dirt and limescale residues from shower enclosure, sanitary ware, and bathroom surfaces.

Thanks to innovative polymers, it forms an anti-drip protection that prevents the buildup of impurities and limescale. It simplifies routine maintenance and leaves no marks or streaks.

SUITABLE FOR:

- Shower cubicles
- Taps
- Sanitary fixtures
- Bathroom surfaces

BENEFITS:

- Easily removes daily dirt and limescale
- Water-repellent effect
- No rinsing required
- Pleasant and long-lasting floral fragrance

N4 MULTI-PURPOSE SANITISER

Multi-purpose sanitiser

Is the ideal solution for daily cleaning and hygiene of all washable surfaces. Its alcohol-based formula works effectively on treated areas, removing traces of dirt without leaving residues of harsh chemicals. Sanitising formula with quaternary ammonium salts.

SUITABLE FOR:

- All washable surfaces (desks, worktops, doors, equipment, sanitary fixtures, glass, and ceramics)
- Home environments, offices, schools, gyms, public and professional spaces
- Suitable for HACCP

BENEFITS:

- Formulated to clean and sanitise
- Leaves surfaces clean and shiny, streak-free
- Dries quickly
- No rinsing required (except on surfaces in direct contact with food)
- Pleasant and long-lasting floral fragrance

N5 STRONG DEGREASER

Strong degreaser

Thanks to its innovative formula with high-performance surfactants, it degreases, removes stains and deep cleans, eliminating stubborn dirt, grease and encrusted residues from any surface in just a few seconds. Non-abrasive and safe, it ensures deep cleaning and spotless results in every professional setting.

SUITABLE FOR:

- Washable surfaces in kitchens/food areas (with rinsing)
- Outdoors, gardening and sports equipment
- Fabrics and technical clothing
- Industry and workshops (machinery, tools)
- Automotive and nautical sector
- **Suitable for HACCP**

BENEFITS:

- Acts in just a few seconds and leaves no residue, for professional results
- Enhanced formula with high-performance surfactants
- Effective against grease, oils, soot, organic residues and industrial dirt
- Pleasant and long-lasting floral fragrance
- Versatile and universal: one product for multiple applications
- Safe and reliable, non-flammable and non-abrasive

N6 FLOOR CLEANER

Concentrated floor cleaner

Ideal for deep and quick cleaning of all washable surfaces. Thanks to its special formulation, it easily removes even the most stubborn dirt, without requiring rinsing and without leaving streaks. Its intense and long-lasting fragrance ensures pleasantly scented surroundings, making every space more inviting and fresher.

SUITABLE FOR:

- All types of flooring and coating

BENEFITS:

- Formulated to effectively remove stubborn dirt and grease
- Leaves surfaces clean and shiny
- Dries quickly
- No rinsing required
- Pleasant and long-lasting floral fragrance
- With practical dispenser spout and measuring cup

PRECAUTIONS:

Do not use on untreated wooden surfaces or untreated metal surfaces such as bronze, copper, brass and chrome.

CANDESAN®

Pre-dosed bleach

CANDESAN tablets, based on dichloroisocyanurate, are a practical, simple and safe replacement for liquid bleach. Thanks to their effervescence, they dissolve quickly in water, releasing active chlorine.

CANDESAN sanitises, disinfects, removes stains, bleaches and deodorises.

Suitable for:

- Kitchen: trays, crockery, chopping boards, tools, utensils, fridge, oven. Removing limescale from pipes and hard surfaces. In the dishwasher, both to sanitise dishes and crockery and the appliance itself.
- Bathroom: sink, toilet, bidet, bathtub. Sanitise and disinfect pipes up to the septic tank. In the washing machine, both as a bleaching agent for white laundry and to sanitise and deodorise the appliance.

SUGGESTED FOR:

- Community
- Domestic

FEATURES:

Tablet weight: 1 g - Colour: white - Odour: typical of chlorine - pH in aqueous solution (1%): 6-6.5 - Chlorine available: 44,8 g - PPM of chlorine: 1320 per tablet in a litre of water - Validity: 36 months
